

PERFECTION IS
WHEN YOU ACHIEVE
IT EVERY TIME.

**Quest to achieve perfection begins with
possessing the right perspective.**

New ideas and innovations all emerge out of this mindset. At Gala, we believe nothing is so perfect that it can't be improved. Boundaries are there to be surpassed, heights are there to be conquered and the best is there to be bettered. This is the starting point of all our endeavours.

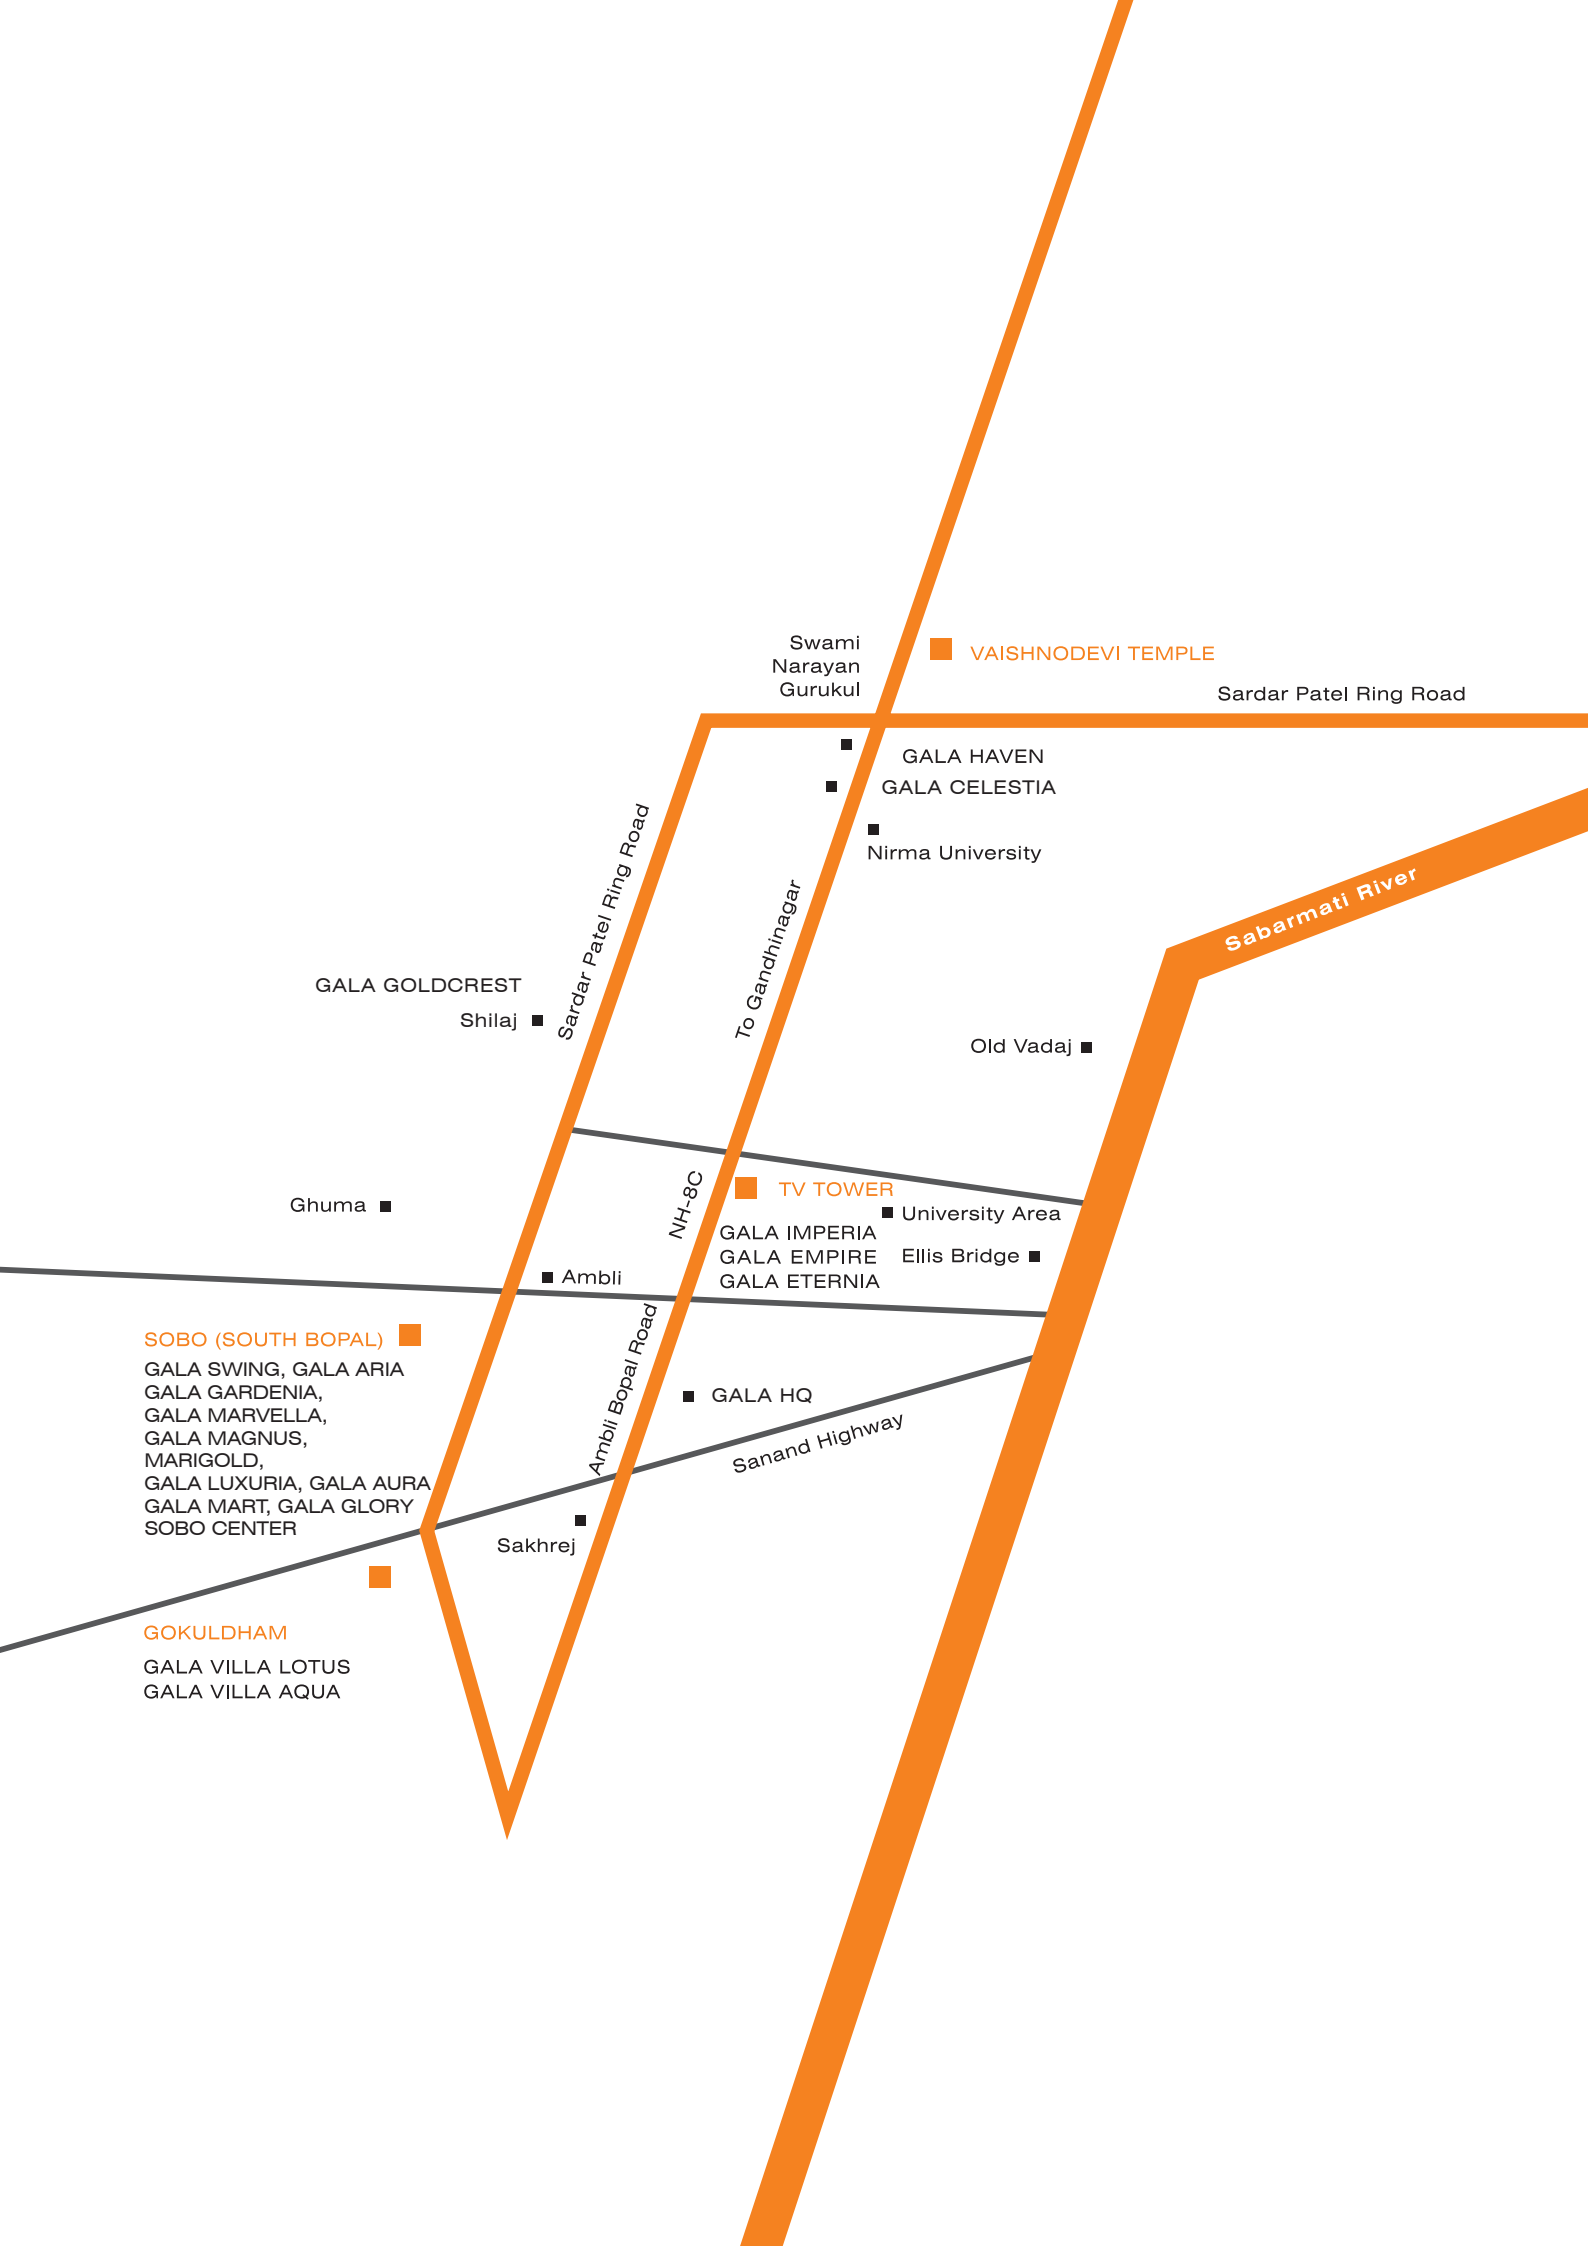

At Gala Group, we have been enamored by perfection, on which several theories have been written and heard. Some say that it's a myth while others believe that it is impossible to be perfect. When we hear that, it makes us stronger and more enduring. We firmly believe that impossible is a word which is not challenged enough.

With over 8 million sq ft of residential and commercial development the group has earned a reputation of being the most trustworthy developer in the city. What once started as a family owned company with transparency, honesty and perfection as its core values is today a professionally managed organisation and Ahmedabad's most respected real estate developer.

In Mumbai, the financial capital of India, we have successfully completed a commercial project - Gala Impecca and currently developing a residential project - IORA at Tardeo.

Till date we have developed over 8 million sq. ft. of residential and commercial spaces. The group was in its nascent stage when it delivered its first masterpiece, Basant Bahar - a project of hi-end bungalows and plotted development in Ahmedabad. This project is one of the landmark developments in Ahmedabad. With various commercial and residential projects, Gala group is meeting the requirement of every kind of property buyer. We identify key places in the city and direct our efforts to be the best in that particular area. The prolific development also helps that particular area become a key link in the broader perspective.

For instance, with around eight projects in SoBo (South Bopal), Gala Group is fast changing the perception of this area and giving it a contemporary facelift. We have also modified its name to a more youthful SoBo and with its brand new cosmopolitan identity, it is soon turning into Ahmedabad's heart.

Moving into the future, Gala projects will be conformed to IGBC Green Homes. This certification abides to all the local governing norms, NBC 2005 and Energy Conservation Building Code to achieve the idea of having an eco-friendly and efficient building. It will provide the residents a comfortable and healthy environment through efficient use of energy and well-planned waste management.
